## Fireworks release of LBRY for Android is LIVE in the Play Store

Today, LBRY releases LBRY Fireworks, which brings improved search, rich text support, a better video play experience, and more.

[Download from Play Store](#) or [direct download](#).

The image contains three screenshots of the LBRY mobile application. The left screenshot shows a channel page for 'STOSEL' (John Stossel) with various video thumbnails and a tip button. The middle screenshot shows a video player for a video titled 'You're Being Controlled Even When You Think You're Helping Yourself: Here's How' from 'WEARECHANGE.ORG'. The right screenshot shows a post from 'lbry://nov-dec-2019-dev-update#0' with text about the November/December 2019 development update, including a link to the 'Development and Community Update archive'.

Fireworks upgrades performance and includes a number of bug fixes and other usability improvements.

### More about LBRY Fireworks

- Faster search experience with more relevant results
- Basic rendering of rich text, including things like this very post
- Audio and video content pages are more responsive, with a larger touch area and autoplay for free content
- First-run experience revamped, account creation less strongly encouraged

Fireworks upgrades performance and includes a number of bug fixes and other usability improvements.

### More about LBRY Fireworks

- Faster search experience with more relevant results
- Basic rendering of rich text, including things like this very post
- Audio and video content pages are more responsive, with a larger touch area and autoplay for free content
- First-run experience revamped, account creation less strongly encouraged
- Added a purchase confirmation to paid content
- Added view and follower counts to file and channel pages
- Tipping interface improved and channels can now be tipped directly from their pages
- Improved display of transient messages, like rewards
- Renamed "Subscriptions" to "Following" in the navigation menu
- Updated to LBRY SDK 0.50.1 for improved stability and performance
- Fixes an issue with subscribed channel content not loading in some scenarios
- Fixes issues with synchronization of tags and subscriptions across sessions

For the full release notes, see both versions [0.12.1](#) and [0.12.2](#)

While it lasts, grab some LBC with reward code [fireworks-2020](#) !
